Our Vision and Mission

Our Vision

To use innovative technologies to enhance business services while providing unique solutions tailored to the individual. IQON aims to be at the forefront of disruptive technologies, particularly in UAV applications for law enforcement and using CAD/CNC technologies in construction, facilitating the transition into 4IR (Fourth Industrial Revolution).

Our Mission

IQON seeks to empower businesses through technology, delivering sustainable, cost-effective, and high-performance solutions that drive growth and efficiency. By embracing innovation and creativity, the company strives to exceed client expectations and maintain industry leadership.

Leadership

Mr. Leaooa Tsepo Mohapi Founder & Managing Director

With over 30 years of experience in the ICT, Aviation, and Construction industries, Mr. Mohapi's leadership has been pivotal in the growth and success of IQON Business Services. His qualifications include:

- 1 • **ICT:** Information Systems, Graphic Design, A+, and N+ certifications.
- 2 • **Aviation:** DJI Drone Pilot and Cirrus SR20 Student Pilot.
- 3 • **Construction:** Project Management experience with expertise in CAD for CFS Construction.

His key roles in major projects such as Paul Roux Stadium, Methodist Church - Meadowlands Turnkey, and CFS projects have established his reputation as a leader in technology-driven business solutions.

Company History And Experience

Since its inception in 2016 (RSA), 2023 (LS), IQON has built a solid reputation for delivering top-tier technological solutions across various industries. With more than a decade of experience in the ICT, Aviation, and Construction sectors, IQON has completed a variety of high-profile projects, including:
